# PREFACE.

---

The Publishers have great pleasure in placing before the public the 1904 edition of THE TASMANIA POST OFFICE DIRECTORY, and take this opportunity to express their thanks to the business men throughout the State for their continued and increased support, and to the Deputy Postmaster-General and the various Official Departments for their hearty co-operation and assistance.

The work is divided into three sections: Towns, Alphabetical and Trades and Professions.

THE TOWNS SECTION contains separate Street Directories of Hobart and Launceston and Alphabetical Directories for every other Town, Township and Postal District in Tasmania.

THE ALPHABETICAL SECTION contains the names for the entire State, arranged under ONE Alphabet.

THE TRADES SECTION shews the Business Firms of the State, arranged under their individual trade or profession.

These three classifications enable the enquirer to see at a glance, *first*, the names of Householders or Traders in any one Town; *secondly*, the address and occupation of any resident in the State; and, *thirdly*, the number of persons throughout Tasmania engaged in any one trade or calling.

Separate Medical, Ecclesiastical, Legal, Educational, Banking, Insurance, Mining, Pastoral and Agricultural, Local Government, Customs, Official, and Postal, and Telegraphic Directories are given, making the work comprehensive and complete.

In conclusion, the Publishers hope that the present edition will be found to have fully maintained the reputation of the Tasmania Post Office Directory, and thus ensure a continued support for the next issue.

Inventors and Original Manufacturers of  
**GALVANIZED WIRE NETTING**

In ALL MESHES and GAUGES, from  $\frac{3}{8}$  in. to 4 in.  
and suitable for all purposes.

**Oldest and Largest Makers in the World.**

SPECIALITY—  
**PATENT MACHINE-MADE  
MIXED-MESH NETTING,**

Consisting of  $1\frac{1}{2}$  in. mesh below and  $2\frac{1}{2}$  in. above, thus  
providing an absolutely safe Rabbit Fence at 20 per  
cent. below the cost of  $1\frac{1}{2}$  inch throughout.

*Do not be misled into buying so-called mixed-mesh netting with intermediate strands, which is in reality but two ordinary widths  
laced together by hand, while ours is woven in one unbroken width throughout.*

At the suggestion of several clients we have laid down Machinery for the  
manufacture of a

**NEW VARIETY** (as illustrated),

Consisting of  $1\frac{1}{2}$  inch below and a special form of  $1\frac{1}{2}$ -inch above, and this com-  
bination exactly fulfils the conditions of the Bill dealing with the rabbit pest,  
as introduced into the New South Wales Legislature by the Hon. Carruthers.

Although this combination is not as economical as our original one men-  
tioned above, yet it effects a saving of  $7\frac{1}{2}$  to 10 per cent. over  $1\frac{1}{2}$  inch  
throughout.

**We being the Sole Makers of this Patent Netting,  
Indentors should specify "BARNARD'S NETTING."**

# Mount Lyell Mining & Railway Company Limited.

**V**ISITORS to Tasmania should not fail to make a trip to Mount Lyell, the most important mining field of the State, where they will find a variety of interesting sights at Queenstown and Gormanston. The former is the seat of the Mount Lyell Co.'s ore-smelting operations, and the latter that of the mines of the district. The seaport is Strahan, which is situated on Macquarie Harbour, and may be reached direct by steamer from Melbourne, Launceston or Hobart, or overland by rail from Burnie. The scenery along the Company's Strahan-Queenstown Railway line is admittedly the most picturesque in the State, being particularly grand on the Abt rack section of the journey, above the celebrated King River Gorge, while scarcely less attractive is the trip on the Company's further railway line from Gormanston to Kelly Basin, near the head of Macquarie Harbour. Throughout both routes exquisite views of harbour, river, mountain and forest scenery present themselves, unequalled in any part of Australia. The railway journeys are made in comfortable carriages in a couple of hours, and at a moderate cost. Coach facilities twice daily from Queenstown to Gormanston and return. Hotel accommodation capital at both places ; rates, 6/- and 8/- a day.

The Company's extensive Smelting Works are always open to the inspection of visitors, as are also the Company's various mines, as well as the subordinate works, such as the flux quarries, cable haulage system, aerial ropeways, iron and brass foundry, machine shops, saw mill, brick plant, &c., &c.

The Company is a purchaser of ores containing copper, silver and gold, and is a manufacturer and vendor of coke for smelting and foundry purposes.
